

Vendor Onboarding Workflow

Vendor Registration Form — Data Captured at Onboarding

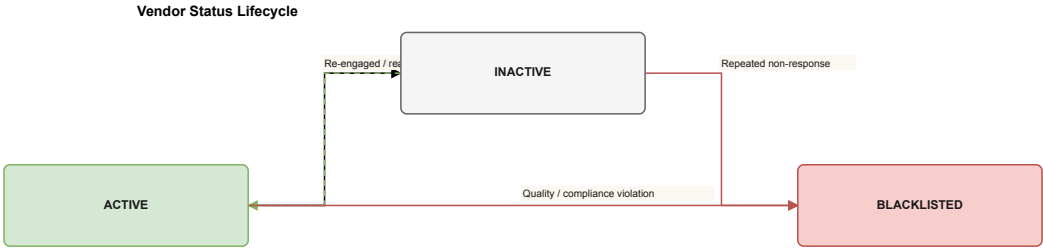

Identity & Company	Role & Expertise	Vendor Type	Location & Coverage	Trust & Compliance
Company / Vendor Name Contact Person, Phone, Email GST Number, PAN Bank Account Details	Role Applied For: Carpenter, Electrician, POP, AC Installation, Painter, Civil, Plumbing, etc. Years of Experience Team Size (no. of workers)	With Material (supplies + installs) — OR — Fitting / Installation Only (labour only)	Base Location / City Region Serviceable Areas / Pincodes	Existing Company Rating (prior clients / platforms) Certifications (optional) Background / Police Verification* Insurance / Liability Cover*

* Suggested additions — vendors' workers enter customer homes for installation, so background verification and liability cover are worth capturing at onboarding.

Vendor Classification & Status Tracking

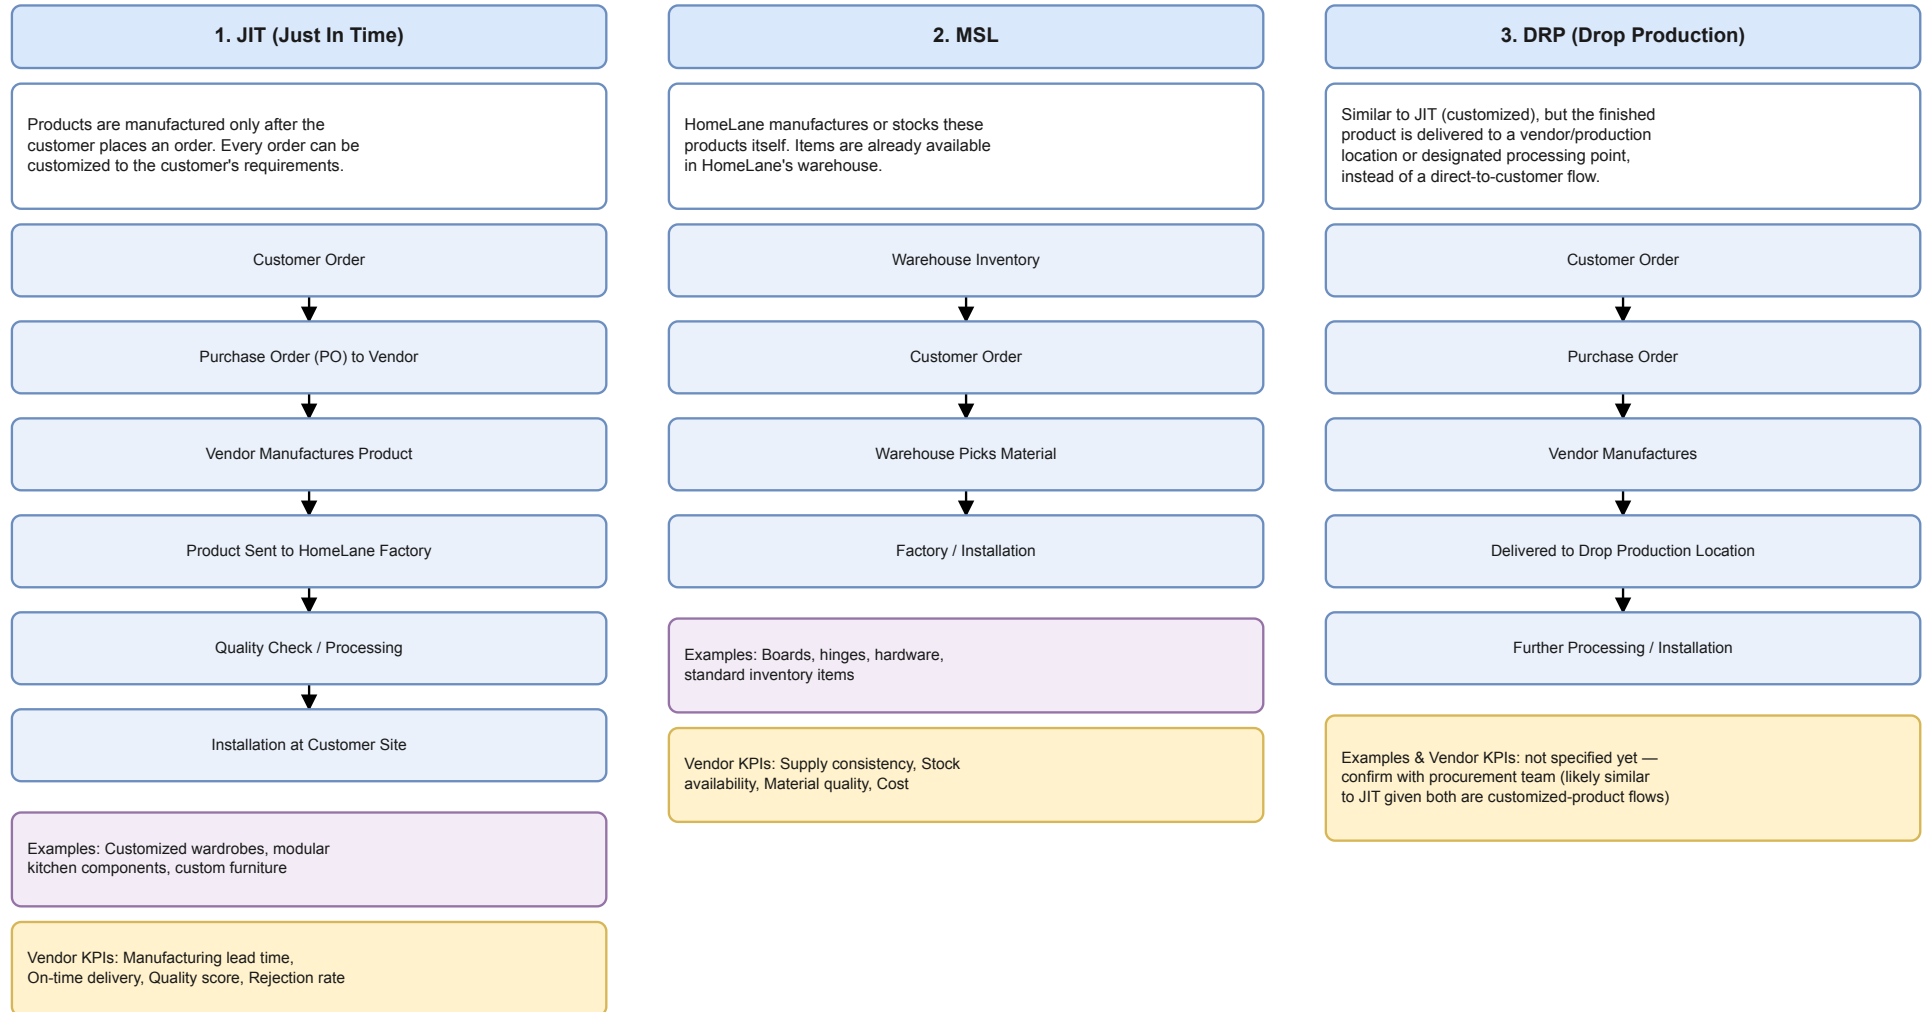

Category = business/procurement classification (below). This is a separate dimension from Role/Trade (Carpenter, Electrician, AC Installation, etc.) captured at onboarding — see Sheet A2.
A vendor record likely needs both.

Category	Description	Status	Active / Inactive / Blacklisted
Admin	Office administration vendors — stationery, housekeeping, office supplies, furniture, pantry, etc.	Confirmed	-- / -- / --
Brand & Marketing	Marketing agencies, branding, advertising, events.	Confirmed	-- / -- / --
Category Type	Category-specific procurement vendors. (Confirm: does this mean product categories like Kitchen / Wardrobe / Furniture managed by category managers?)	Confirm Internally	-- / -- / --
Core Procurement	JIT, MSL, DRP vendors.	Confirmed	-- / -- / --
Cubico	POP materials, laminates, loose accessories, etc. (Confirm exact product list under this term.)	Confirm Internally	-- / -- / --
Design Partner	Interior designers and design consultants.	Confirmed	-- / -- / --
HDS Product	Product suppliers under HDS. (Confirm the full form / internal meaning of "HDS".)	Confirm Internally	-- / -- / --
HDS Service	Service providers under HDS. (Confirm the full form / internal meaning of "HDS".)	Confirm Internally	-- / -- / --
IT Related	Software, hardware, networking, SaaS vendors.	Confirmed	-- / -- / --
Lease Line	Internet / telecom / leased line providers.	Confirmed	-- / -- / --
Professional Service	Legal, finance, consulting, HR, auditing.	Confirmed	-- / -- / --
SCM Vendor	Supply Chain Management vendors — logistics, warehousing, transportation, packaging, freight, etc.	Confirmed	-- / -- / --
Square Partner (FOCO)	FOCO / business operation partners. (Confirm: FOCO = Franchise Owned, Company Operated?)	Confirm Internally	-- / -- / --

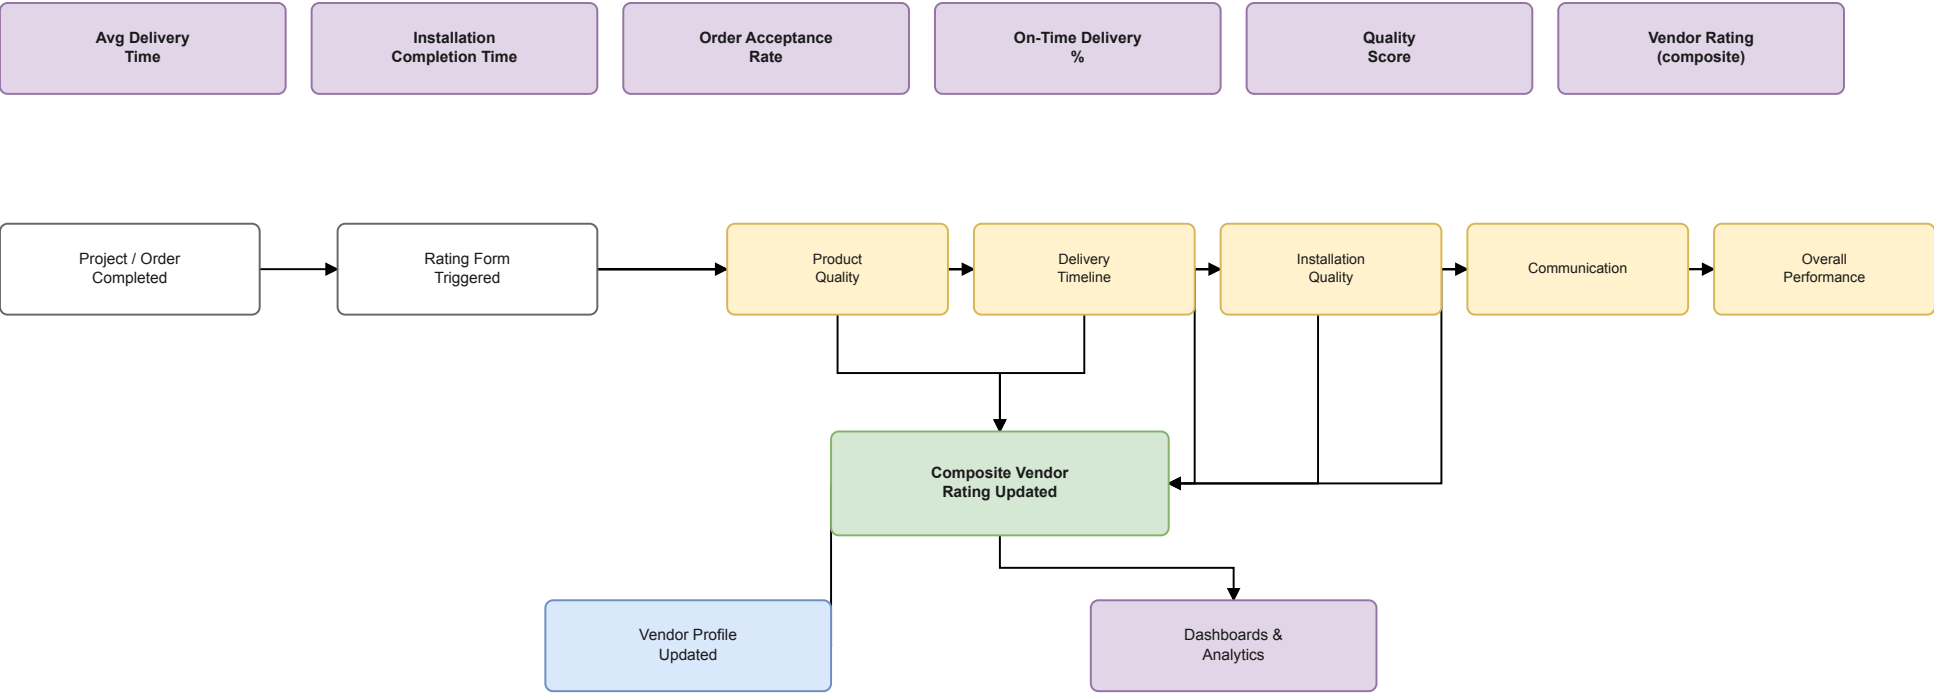

Core Procurement Types — JIT / MSL / DRP

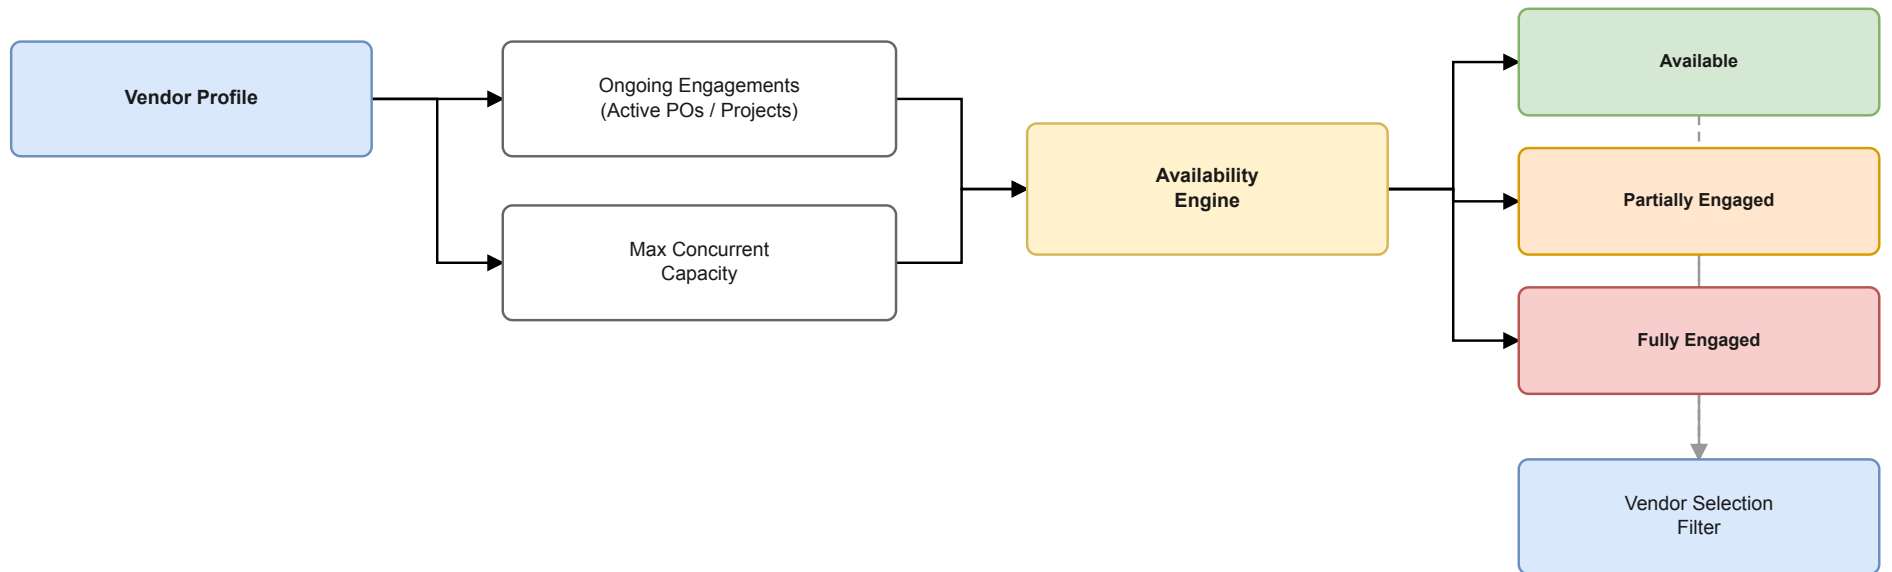

Drill-down of the "Core Procurement" category on Sheet A3 — these are the three ways a product physically flows from vendor to customer.

Purchase Order (PO) Workflow — with SLA-based Auto-Reassignment

PO Data Model — Real SAP Payload (sample: PO 4800117816)

Source: response.xml shared by Subhdeep — a real query response for one PO from SAP.
Envelope: {status:"S", message:"Retrieved 1 PO(s) with 4 item(s)", pdfFilename, pdfBase64, headers, items}
Business translation of this sample: Vendor "Colour Concept" (Kolkata) supplying painting materials/labour (Wall Putty, Surface Prep, Emulsion Paint — all Material Group "Painting") for a HomeLane job at Inwood Furnitech, Kolkata. PO total ₹4,23,978.45 gross across 4 line items. Same field structure repeats per line item — only item 1 of 4 is shown below as the sample.
Note: this response reads like a query/fetch result, not confirmed yet whether it's the exact same shape as the create-vendor-po inbound push payload — worth confirming with Subhdeep, but the underlying PO entity fields are very likely identical either way.

materialGroup	4010
materialGroupDesc	Painting
productHierarchy	10002000044010

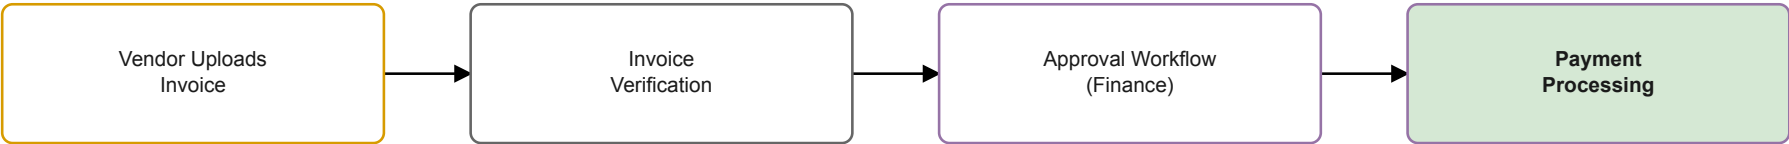

Cross-references into this design:

- supplierCode / supplierName → vendor identity (Sheet A2 onboarding, A3 classification)
- poTotalNet / poTotalGross / cgstTotal / sgstTotal / igstTotal → Invoice & Payment (Sheet A12)
- materialGroupDesc (e.g. "Painting") doesn't map cleanly to the 13 categories on Sheet A3 — worth reconciling
- pdfFilename + pdfBase64 → the API also returns a ready-made PO PDF; Vendor Portal can display/download this directly without reconstructing a PDF from the JSON fields
